

Commodity Manager Global Procurement (m/w/x)

Workplace can optionally be located at one of our Semecs sites in Vrábľe (Slovakia), Uden (Netherlands) or Mosbach (Germany)

Your Responsibilities:

- Manage assigned commodity groups across the SERO EMS Group
- Support technical development and customer projects
- Involve suppliers early in customer projects
- Provide functional leadership to buyers across multiple sites
- Evaluate technical concepts, specifications, and engineering changes
- Lead global technical and commercial negotiations with suppliers
- Drive cost reduction and value improvement initiatives
- Coordinate cross-site actions during critical supply chain events
- Represent the company's interests in supplier escalations
- Act as the escalation point between sites and strategic suppliers.

Your Profile:

- Degree in Engineering, Business, Economics, or a similar field. Alternatively, a commercial or technical qualification with relevant experience
- Several years of experience in Commodity Management, preferably in the electronics industry
- Strong technical understanding and the ability to evaluate specifications and manufacturing processes
- Confident communication at management level and strong stakeholder management skills
- Strong analytical and strategic thinking with an entrepreneurial mindset
- Excellent negotiation skills with proven experience in price and contract negotiation
- Team-oriented and proactive with a structured and results-driven working style
- Resilient and flexible
- Excellent, written and spoken English skills; German language skills are an advantage
- Legally authorized to work in one of the following locations: Vrábľe (SK), Uden (NL), or Mosbach (DE).

What we offer:

- An attractive compensation package linked to performance and responsibilities
- Outstanding career development opportunities within a fast-growing international organization
- A strategically important role with global influence on sourcing, supplier, and commodity strategies
- High visibility across the organization and direct collaboration with senior management
- An entrepreneurial work environment with ample opportunities to drive change and deliver measurable results
- A highly motivated international team and cross-functional collaboration across multiple locations.
